

West Plains Career Center-Thornburgh Facility

407 W. Thornburgh
West Plains, MO 65775
Phone: 417-256-6152

You will be in the upstairs conference room.

Please Note: The bridge in front of the facility is currently under construction (October 2, 2013). There is a bit of road construction and the best way to get there is to use the following directions.

When you enter West Plains, take left at the stoplight by Sonic (US 160/MO CC/Gibson Street)..

Continue to follow US 160 across the intersection at McDonalds. You will turn left at the first road past Aldi by the Police Station (Concord Road).

Turn right on Independence Drive/160. Follow this across the railroad tracks. You will continue past the facility on the right where you will see military hummers, etc.

You will turn right on Garfield Avenue.

It will end at Thornburgh Street where you will turn right.

Here is where the weirdness starts. Drive until you see where the bridge is out. You will see our automotive campus on the right. You are literally going to drive through the parking lot of the automotive center which comes out at a make-shift driveway to our new career center.
